

## FACT SHEET ON TISSUE GRAFTS

# Tissue Grafts:

- improve the appearance of teeth
- cover exposed roots
- provide a band of protective tissue to enhance the function of teeth
- improve comfort caused by sensitivity
- permit management of many defects previously thought to be untreatable
- help to eliminate gum line decay
- help to eliminate tooth loss

### ASK YOURSELF THE FOLLOWING QUESTIONS:

Are you embarrassed by the appearance of a tooth?

Are any of your teeth sensitive?

Are you afraid of loosing any of your teeth?

**If you answered "YES" to one or more of these questions, call us today at 765-447-9319 to schedule an evaluation appointment. We would be pleased to evaluate your oral health and discuss treatment options with you.**

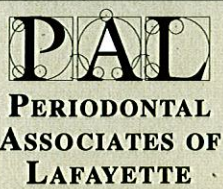

**Before**

**After**

*In many cases, we can improve the appearance of teeth with recession if treated at an early stage. Early detection is important. Check out our Website for more information on surgical procedures, gum grafting.*
